

FREDERICK JEFFCOCK

SWE STUDENT

Part-time - Sept 2026 - Feb 2027

Full-time - Apr 2027 - Aug 2027

Montpellier, France | frederickjeffcock@gmail.com | [github/Quinceyyyy](https://github.com/Quinceyyyy) | [linkedin/frederick-jeffcock](https://www.linkedin.com/in/frederick-jeffcock)

SUMMARY

Student at Epitch.

PROFESSIONAL EXPERIENCE

Full-stack Intern, Ir2 Cabinet

Oct 2025 - Dec 2025

- Web Scraper development | **Python** - scraper targeting job listing aggregates like LinkedIn/FranceTravail through HTML scraping and API calls.
- Dashboard Interface - displays the results of the scraper in readable manner.
- SQLite3 data-base - to store the results and for easy sharing.

Full-stack Intern, Kilanne Investments

Jun 2024 - Aug 2024

- Maintained old systems.
- Web Scraper | **Rust** - .

PROJECTS

Raytracer [Uni] [C++]

April 2026

- Modular raytracing engine (3D rendering) based on an extensible architecture.
- Implementation of intersection calculations, lighting, shadows and reflections
- Plugin system via dynamic library loading (.so)
- Implemented multi-threading optimization that slashed rendering times by 50% to 90% depending on the size of the image.

Cartridge [C]

April 2026

- Low level development of a set of games that runs on Gameboy hardware.
- Implementation of an engine that interfaces with the hardware.

QEMU-ARM SIM [C]

April 2026

- Low level development of a set of games that runs on Gameboy hardware.
- Implementation of an engine that interfaces with the hardware.

EDUCATION

EPITECH - Computer Science

Sep 2024 - Juin 2029

Project-based engineering program

University Montpellier - Economics

Sep 2021 - Sep 2023

Economics undergrad

HARD SKILLS

- **Languages:** C · C++ · Rust · Python
- **Tools:** Git · GitHub · Notion
